Working of a text of my choice

Comparison and Contrast

To be able to choose on which text we wanted to work

7. Areas for improvement: please tell us what you think is missing.

None

Maybe working on each text more individually during the entire course while learning the techniques instead of some exercises.

It helps for the public speech or talk. It would be nice if the program can also include the effective usage of gramma in the public talk.

9. What do you think about online teaching as opposed to face-to-face teaching? (optional)

4 respuestas

I think it's more comfortable, and works well.

I would prefer to do it face-to-face but it was fine. Te teacher made it great.

It is more difficult to keep people engaged, making the job of the teacher even harder!. It was not an issue in this case even though face-to-face would have been benefitial.

The online teaching is effective for this course because we always received the instant feedback from the teacher.
